

# CAURA presents Webinar 34

# 2012

## Why research administrators should care about knowledge mobilization and what you can do about it

With

**David J. Phipps, Ph.D., MBA**

Director, Research Services & Knowledge Exchange  
York University

**Tuesday February 14**

**10am PT/ 11am MT/ noon CT/ 1pm ET/ 2pm AT/ 2.30pm NT**

This is CAURA's series of webinars straight to your desk. Our webinars are online sessions, hosted by a moderator and run by a guest presenter on a particular topic each time. You attend with your voice *live* so that you can ask questions and participate directly, sitting at your desk with computer and headset.

These are PowerPoint presentations, with no video at this time.

This approximately 1 hour session will be recorded so CAURA members can listen to the information at any time after the session.

We don't want to waste your time, please ensure you have the technology required.

**Register with**

**tyriea@telus.net**

for how to get into the session.

**Previous sessions**

see CAURA website, under events

Every SSHRC Insight Grant now needs a knowledge mobilization strategy. CIHR Partnerships in Health Systems Improvement is all about knowledge translation: CIHR KT Supplements, SSHRC Public Outreach, SSHRC PG, PDG etc. Also funders like IDRC, CHSRF and many health charities are looking for some form of knowledge mobilization/ translation/ exchange (choose your term....they all mean the same thing).

What is this thing, knowledge mobilization? David Phipps will provide details about developing a Knowledge Mobilization Unit in the Office of Research Services. He will speak about the services this unit provides and the metrics that they track. This webinar is based on a paper recently published in Scholarly & Research Communications "[A Report Detailing the Development of a University-Based Knowledge Mobilization Unit that Enhances Research Outreach and Engagement](#)". Besides, it's on Valentine's Day. And who doesn't love their job enough to learn about Knowledge Mobilization?

### Using the Elluminate Collaborate Webinar Software

Requirement - Windows

- Windows XP (32 bit), Windows Vista (32 or 64 bit) or Windows 7 (32 or 64 bit)
- Pentium III 1 GHz processor

Requirement - Mac OS X

- Mac OS X 10.5 (32 or 64 bit) or Mac OS X 10.6 (32 or 64 bit)
- G4, G5 or Intel processor

Requirement - Linux - Ubuntu 9.10 (64 bit)

Also:

- Java version 1.5 or higher
- 256 MB RAM
- 20 MB free disk space
- 28.8 Kbps connection (the more the better and no wireless is best)
- Windows or Linux: sound card with headset
- Macs: internal, USB, or external iSight microphone

Ensure your pop up blockers are off and you can run Java. If you have a firewall, you may have to change the Proxy Settings preference in Blackboard Collaborate. If Blackboard Collaborate encounters a proxy configuration error, it will return a Connection failed error message. Ask your System Administrator for help or to provide you with the necessary proxy server information.

To run the Audio Setup Wizard before your session begins, either join your session early (up to 30 minutes) or go to: <http://support.blackboardcollaborate.com> To open the Configuration Room, browse to First Time Users and then to Step 2 under Blackboard Collaborate webconferencing.
